

Pennsylvania Chapter of A Continuous Charity | Loan Recipient Testimonials

“ACC is a great organization that was able to help me as a fresh graduate have an opportunity to pay off my loans in a non-interest bearing way. It gave me flexibility along with the opportunity to do so in a Halal manner. Can't recommend enough” – Anonymous

“I do my best to spread the word and tell people how I was able to start and continue my study in the school of pharmacy. I also teach people of the good cause of A Continuous Charity, and how it is beneficial to everyone. I will continue spread the benefits for ACC in any community I meet with” – Mohamed

“My name is Zaid Irfan, and I am very fortunate to be an ACC loan recipient Alhamdulillah. Receiving this interest-free loan has benefited me -- not only in the present life -- but also in the hereafter because Alhamdulillah I have deferred gaining the sins one would get from falling into an interest based loan. I am going to college to become a professional pilot inshaAllah, and the flight fees involved are not easily manageable. Alhamdulillah I was able to manage two years in the program from savings and scholarships I had, but going into the third year I knew I was going to be running out of funds. I searched extensively to find an organization that would provide interest free loans to Muslim students and I was shocked when I found A Continuous Charity, because I didn't believe an organization such as this would actually be real! Alhamdulillah, I was approved for a loan by ACC and I will say that the team working behind this organization is professional, very hard-working, kind hearted, and very generous. Being approved for this loan saved me from having to stop my education and I can continue to pursue my dream of becoming a professional pilot for the airlines one day inshaAllah. May Allah (swt) grant a lot of happiness and success for the people behind this organization, and put barakah in their time, Ameen. I highly suggest you apply for a loan at ACC instead of applying for one elsewhere where you will be charged interest, and also donate any amount to this foundation as well because you are looking out for the future generations in our Muslim community and it is also a Sadaqah-Jariyah, so you will be rewarded for your donation forever. I hope that one day inshaAllah, ACC has enough funds so they they don't ever have to turn down a loan applicant, so that all Muslim students can continue their education without the burden of riba.” – Zaid Irfan

“Assalamu Alaikum! I am a junior Recreational Therapy major at Temple University, and I am incredibly grateful for ACC choosing me as a loan recipient. Alhamdulillah, ACC has taken off a huge burden from me of paying tuition for this current semester and has allowed me to put forth maximum focus and effort on my studies. I am so close to graduating and also living my life with a lot less stress thanks to the ACC Pennsylvania Chapter. So, to anyone reading this, if you would like to contribute to any organization, please choose to contribute to their fundraising efforts so more students such as myself can benefit Inshallah.” – Mohammed Hossain
