2025 IMPACT REPORT

STUDENT TESTIMONIAL

As a first-year pharmacy student with dreams of becoming a clinical pharmacist, the burden of interest-based loans was a heavy one. That's why I'm incredibly grateful to learn about the Memphis Islamic Center Fund with A Continuous Charity. Through their support, I was able to access a standard, interest-free loan—giving me the chance to pursue my goals without compromising my values. Their commitment to educational justice makes all the difference for students like me.

As a first-year medical student, funding school has been tough. My father, a high school teacher supported me this year while also helping my younger sister. The Memphis Islamic Center and A Continuous Charity's interest-free loan came at the right time. It lifted a burden and let me focus on my dream of becoming a cardiologist.
